2024 SPRING EMT COURSE

EMS 101 BR5

Emergency Medical
Technician

Credits - 6

This class is designed to serve as the initial basic emergency care training program. It follows the National Education Standards and concludes with National Registry Emergency Medical Technicians and Pennsylvania State EMT Certification.

The Program focuses on patient assessment, evaluation of emergency situations, practical skill proficiency and effective communications. This class will serve as a required building block to enter the Paramedic Program.

Candidates are required to complete mandatory health screenings and criminal background forms
